2001

Full-Stack Developer & Cybersecurity Specialist

Software Developer & Technology Intern · Capaciti
| 2026 – Present

PROFESSIONAL PROFILE

Passionate software developer and Technology Intern with a strong foundation in Java, VB.NET, SQL, Python and web technologies. Graduated Cum Laude with a Diploma in ICT in Applications Development from Walter Sisulu University, and completed an Advanced Diploma in ICT in Applications Development in 2025. Experienced in building full-stack applications, AI-powered tools, data dashboards and cybersecurity-conscious software. Student mentor for second-year Human Computer Interaction 2 students (October, one month). Committed to secure, clean, maintainable code and responsible AI development.

WORK EXPERIENCE

Software Developer & Technology Intern

Capaciti

2026 – Present · Johannesburg, South Africa

- Hands-on experience across the full software development lifecycle including design, development, testing and deployment.
- Applying Java, SQL, Python and web technologies on real-world projects with a focus on security best practices and DevSecOps principles.
- Engaging in professional development workshops covering cloud computing, cybersecurity fundamentals and enterprise software architecture.
- Collaborating with cross-functional teams using agile methodologies and industry-standard tools.

[Java] [SQL] [Python] [HTML/CSS/JS] [Agile] [Git] [DevSecOps]

Student Mentor — Human Computer Interaction 2

Walter Sisulu University

October · 1 Month · Academic Support

- Mentored second-year ICT students in Human Computer Interaction 2, providing academic guidance and technical support.
- Assisted students with project documentation, UX research write-ups and delivering structured project deliverables on time.
- Conducted one-on-one and group sessions covering HCI concepts, practical application and project management.

[Mentorship] [HCI] [Documentation] [UX Design] [Project Management]

EDUCATION

Advanced Diploma in ICT in Applications Development [Completed]

Walter Sisulu University · 2025

Diploma in ICT in Applications Development — Cum Laude [Cum Laude]

Walter Sisulu University · 2022 – 2024

High School (Maths & Science Focus) [Completed]

Dr Molefi Secondary School · 2020

TECHNICAL SKILLS

Programming

Java (70%), VB.Net (75%), SQL (80%), Python (55%), JavaScript/HTML/CSS (72%), MIPS Assembly (50%)

Database	MySQL, SQL Server, Database Design, Query Optimisation, JDBC Connectivity
Cybersecurity	Secure Coding, Input Validation, Auth & Authorisation, RBAC, API Security, OWASP, DevSecOps
Data & AI	Pandas, Matplotlib, Seaborn, Streamlit, Groq AI API, Claude API, Prompt Engineering
Tools & Frameworks	Git/GitHub, VS Code, NetBeans, Maven, Flutter, Microsoft Azure, GitHub Pages, Windows Forms
Soft Skills	Problem Solving, Team Collaboration, Communication, Mentorship, Adaptability, Critical Thinking

PROJECTS

OceanIQ – Blue Economy Assistant Chatbot — Group · Groq AI, HTML/CSS/JS

AI-powered ocean chatbot with voice I/O, GPS, marine weather, live stats and role-based personas. Deployed on GitHub Pages.

NexGen Studio – AI Content Generator — Solo · HTML/CSS/JS, Claude API

Multi-page AI content generation platform built with vanilla HTML/CSS/JS, integrating the Claude API. Features prompt library and generation history.

BizIntel AI – Business Intelligence Dashboard — Solo · Python, Streamlit

Interactive AI-driven dashboard for business data analysis, visualisation and insights generation. Deployed on Streamlit Cloud.

MineTrax AI – Mining Operations Tracker — Solo · Python, Streamlit

AI-assisted mining operations monitoring system tracking performance metrics and supporting data-driven decisions.

Employee Leave Management System — Solo · Java, MySQL

Desktop Java application for managing leave requests, approvals and balances with role-based access control (Admin/Employee).

Library Management System — Solo · Java, MySQL

Java desktop app for cataloguing books, managing members and tracking checkouts and returns with robust CRUD operations.

Movie Database — Solo · Java, MySQL

Java desktop app with MySQL for adding, searching and managing movie records using JDBC connectivity.

Python Library System — Solo · Python

Python-based library management system demonstrating OOP, file handling and data management.
